THE GOSPEL OF LIFE

'Some people argue that the right to life of the unborn should be a matter of personal choice on the part of the mother. Others argue that, while they are opposed to abortion as a general principle, they believe that there are some children to whom the right to life does not apply either because they have been diagnosed with a serious medical condition or because they have been conceived as a result of rape. We wish to state our firmly held belief, based on reason as well as faith, that there is no such thing as a human life without value.' (Irish Catholic Bishops, *Two Lives One Love*)
